

SPECIAL EDUCATION BOARD REPORT

Holly Day, Director

January 9, 2023

- Staffing shortages continue at crisis level. Special thanks to the Board and Union for allowing the hiring of Ed Tech I's during this time, although this hasn't yet changed our application numbers.
- Special Education continues to shift staff to meet the needs of students in our district. There are still no out of district placements available due to their staffing shortages.
- Unified Basketball games start in February. We currently have seven games scheduled.
- It's been a quiet month here with the vacation. Shout out to special education teachers Donald Drake and Leetta Linscott for "gnoming" the trees at PCS before the holidays. I hope you got to see how cute the trees were!
- Happy New Year!
