

## **RSU 16 School Facilities Plan of Action**

All Staff and Students are instructed to utilize the recently installed (Within the last two years) bottle fill station/fountains at the RSU 16 Schools. These stations dispense water that is free of lead.

### **Bottle fill station/fountains**

Poland Community School has 5 bottle fill station/fountains

Elm Street School has 4 bottle fill station/fountains

Minot Consolidated School has 3 bottle fill station/fountains

Poland Regional High School and Whittier Middle School have 7 bottle fill station/fountains.

### **Water Fixture replacements.**

In the next couple of months, the facilities crew will be replacing all fixtures that tested above 4 ppb for lead. Once these new fixtures are in place, a new series of water tests will be conducted.
